Seeking taste and nutrition, we want to be the European leaders in snack production for our customers' brands, helping them shape a growth portfolio.

Expertise
for the food
industry.

Our sustainability focus areas and ambitions 2030.

We have a key role in global climate and health solutions, and we want to contribute to the sustainable future of food.

Sustainability
for the food
industry.

We focus on:

Products and services.
(which enable the health and well-being of people and the planet).

Ambition 70% of our net sales comes from products and services which enable the health and wellbeing of people on the planet.

Actions More than 100 references with improved nutritional attributes: Salt reduction, fat reduction, fiber enhancement, legumes and pulses rich. Portfolio of HFSS friendly solutions, Nutriscore A or B, and with less than 2 health warning hexagons.

Climate and nature actions.

Ambition Less GHG emissions (50% in value chain and 80% in own operations, All recyclable packaging and made from renewable materials.

Actions Absolute emissions were reduced in 22%, and all pellet manufacturing uses 100% green energy, also achieving an energy efficiency of 5% less energy used vs last year.

Fair and inclusive ways of working.

Ambition 100% of raw materials from high-risk areas come from sustainable sources verified by external parties.

Actions We work with Spanish corn Farmer and with European producers of pulses, legumes and veggies to guarantee best farming practices.
